RETURNING TO CAMPUS

Returning to the Parr Center & the Undergraduate Library's podcast booth means streamlining our production process.

We hope to feature more professors and partner with WUNC.

EXPANSION

As our audience continues to expand, we look to add new followers from the Twittersphere and TikTok. Once the pandemic ends, we plan on adding a visual element as well.

ACKNOWLEDGEMENTS

The COVID-19 Pandemic provided **many challenges** this year: We lost our previous recording space, gained new members, and had to share documents through the cloud. Meeting these challenges head on would not have been possible without the encouragement and guidance of **Sally Moore**.

We would also like to thank **Barry Lam**, professor of philosophy at Vassar College and producer of Hi-Phi Nation, for his long-term planning insights.

FELLOW THANKS

One focus this year has been incorporating DEI-adjacent content. Many thanks are owed to **Andreamarie Efthymiou** for organizing, planning, and facilitating collaboration between DEI and the Podcast pod. Thanks are also due to **Isha Padhye** and **Liam Bendezu** for assisting in research ahead of these episodes.
